nest the iniquities of the fair

hood of corrupt or ulcerous matter, which, in the lung. liver, and internal organs, is termed therebys in the glands, swellings; and on as surface, cruptions or sores. This foul cor-uption, which genders in the blood, depresses the energies of life, so that scrofulous constituazind the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, ndered fatal by this taint in the ystem. Most of the consumption which demates the human family has its origin directly this serofulous contamination; and many estructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or re aggravated by the same cause.

One quarter of all our people are scrofulous; heir persons are invaded by this lurking in-tection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical hill of our times can deviae for this every-there prevailing and fatal malady. It is com-ined from the most active remedials that have sen discovered for the expurgation of this foul isorder from the blood, and the rescue of the from the blood, and the rescue of the from its destructive consequences, it should be employed for the cure of aly Scrofula, but also those other affective which arise from it, such as Emprove. ROSE, OF ERTSIPHAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUK, SCALD HEAD, RINGWORM, RUNGWATISM, SYPHILITIC and MERCURIAL DIS-DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLANTS ARISING PROM VITTATED ON INTURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrottile is a degeneration of the blood. The particular purpose and virtue of this Sursaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S

Ague Cure,

FOR THE SPREDY CURE OF ntermittent Fever, or Fever and Ague, lemittent Fever, Chill Fever, Dumb gue, Periodical Headache, or Bilious leadsche, and Bilious Fevers, indeed or the whole class of diseases originates in biliary derangement, caused by he Maiaria of Missmatic Countries.

We are enabled here to offer the community a semety which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This 'Guan' expels the missmatic poison of Faven and Asua from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the test remedy ever yet, discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brims it within the reach of every body; and in billious districts, where Faven and Acus prevails, every body should have it and use it freely both for cure and protection. A great superfority of this remedy ever any other ever discovered for the speedy and estain are of intermittents is that it contains no Chimine or infured, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the missmatic poison. A great variety of disor-

Rever and Ague is not slone the consequence of the missuatic poison. A great variety of disorders arise from its irritation, among which are Newadoin, Rheimatism, Good, Headache, Blindness, Toothache, Earache, Catarrh, Asilma, Palphetsion, Painful Affection of the Spicen, Hysterics, Pam in the Bowels, Cole, Paralysis and Devangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Gura" expels the poison from the blood, and consequently cures them all afike. It is an invaluable protection to unfinigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into discussed. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every onnee of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counturfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for Coustis, Colley, Hoarseries, Astrick, Chour. Whooting Coustis, Barnomeries, Individual Transaction, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best ruli ance of the afflicted, from the log cabin of the American passant to the palaces of European kings. Throughout this suffire country, in every state and city, and indeed all most dwarp hambel it countains, Chranar Protonal is known as the best of all remedies for diseases of the threat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for the many foreign countries to be set the dan gerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business the agency in above, if there is any reliance unton any on the assurance of intelligent physicians, whose busines is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine descure the class of diseases it is designed for, beyond any an all other remedies known to mankind. Nothing but its in trinsic virtues, and the unmistakable benefit conferred or thousands of sufferers, could originate and maintain threputation it enjoys. While many inferior remedies haven thrust upon the community, have failed, and been thrust upon the community, have failed, and been discarded, this has gained friends by overy trial, conferrebenefits on the afflicted they can never forget, and produce cures too numerous and remarkable to be forgotten. A GREAT CURE BY DB, KEYSER'S PROTORAL SYRUTY.—I live in Peebles township, Allegheny county. I had a coughing and spitting, which commenced accurate 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued managed until early in October. At that time I was advised to try your PECTURAL COUGH SYRUP, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known that this valuable remedy will do for others what that done in my case.

A WONDERFUL CURS.—Some time ago, an old neighbor of mine was very iti with a had sough which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of you. Pectors Syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about the hit years old. I have no doubt the Pectoral saved his life.

"STOP THAT COUGHING."—"How can I do it?" "Go to Keyser's on Wood street and get a bottle of his Cough Pectoral, and if that don't dure yon, your case must be desperate indeed." This is a specimen of the collequy one hears almost every day in cold catching periods of the year. And we can, from actual experiment, cheer fully concur in the advisor's admonition as above, for we have tried the "Pectoral." in a most sunborn case with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mutih, an subduable coughs we ever experienced since our savent upon this mundane sphere. We coughed steedily and laboriously for one whole week. In hopes of there is our, but it was no go. In fact it seemed rather to have improved by practice, and to have acquired strength, potengy and distressivility by the operation. In this stage of the siege, we concluded on may to Agyser's, 140 Wood St.—procured a fity cent bottle of the "Pectoral." took it seconding to directions, and in forty-eight hours we were master of the field, the enemy having succonditionally surrendered, after a brief but unequal conflict sinh so formidable an adversary as Reyser's famous "Gough Pectoral."—Drowneville Chipper, Dec. 14, 1830.
